

Report to: Performance Review Committee (PRC)
Agenda item: 3
Date: 22 July 2013
Subject: 2013-14 Performance Report, Quarter 1
Sponsor: Deputy Chief Constable
Authors: Ian Cawthron, Michelle Sallis, Nurul Abedin

1. PURPOSE OF PAPER

- 1.1 This paper informs the PRC's review of BTP's performance against its Policing Plan targets during the first quarter (Q1) of 2013-14.
- 1.2 The performance review covers BTP's nine national targets and selected local targets. It also addresses specific questions raised by the BTPA Executive, including Theft of Passenger Property (ToPP), Violence Against the Person (VAP), non-notifiable offences, sickness rates, Scottish (SC) Area's performance against its targets and London Underground (LU) Area's target to reduce lost customer hours.

2. BACKGROUND AND SUPPORTING DOCUMENTS

- 2.1 Unless otherwise stated, performance data in this paper is for the first quarter of the 2013-14 policing year, 1 April 2013 to 30 June 2013.
- 2.2 The paper has five appendices, attached as separate documents:
- Appendix A 2013-14 Q1 Performance Dashboard
 - Appendix B 2013-14 Policing Plan Executive Summary, to 30 June 2013
 - Appendix C Force Crime Group data for 1 April 2013 to 30 June 2013.
 - Appendix D FHQ Key Performance Indicators for April-May 2013
 - Appendix E Criminal Justice data pack for March-May 2013

3. ACHIEVEMENT OF TARGETS

- 3.1 Table 1 shows the number of National and Local Policing Plan Targets BTP and each of its Areas are currently achieving. Q1 performance data is available for all of BTP's targets except Target N5, to spend at least 58% of the 2013-14 budget on frontline resources. The financial data for this target will not be available until the end of July.
- 3.2 BTP is currently achieving six of the eight targets for which data is available. The two it is not currently achieving are N8, visibility between 7pm and 3am, and N9, the detection rate for notifiable public order offences. Section 4 has further details of BTP's performance against each of its National Targets.
- 3.3 BTP Areas are currently achieving 24 of the 42 Local Targets. Section 5 has further details of Areas' performance against key Local Targets.

Table 1 Number of 2013-14 Policing Plan Targets achieved

	National Targets		Local Targets		National and Local	
	Number of Targets	No. being Achieved	Number of Targets	No. being Achieved	Number of Targets	No. being Achieved
London North	7	4	7	7	14	11
London South	7	6	6	5	13	11
London Underground	6	5	6	5	12	10
North Eastern	7	3	5	2	12	5
North Western	7	2	6	2	13	4
Scottish	7	1	6	2	13	3
Wales & Western	7	3	6	1	13	4
FHQ	2	1			2	1
BTP	9	6	42	24	51	30

4. PERFORMANCE AGAINST NATIONAL TARGETS

N1 Reduce the number of police related lost minutes

4.1 BTP's 2012-13 disruption target was to reduce Network Rail (NWR) Lost Minutes (LMs) attributed to police-related categories¹ at 36 selected locations. In 2013-14, BTP's target is to achieve a further 3% reduction, and the target has been extended to all locations.

4.2 To date NWR has recorded 276,000 police related LMs, 7,000 (3%) fewer than BTP's year to date (YTD) target.

4.3 Until late June BTP was achieving its disruption target by a much wider, 11%, margin, but national performance was then adversely affected by three major incidents in WW Area:

- 21 June: a fatality between Rugeley and Lichfield (5,057 LMs)
- 27 June: an assault and trespass (into the tunnel) at Birmingham New St (5,882 LMs)
- 28 June: a fatality with a badly disrupted body near Rugby (6,888 LMs)

NWR recorded 5,800 police related disruption incidents between April and June 2013. The majority, including most of the largest group, trespass, only led to a few LMs. Others, such as the examples above, have a disproportionate effect on disruption to the railway and can cause sharp daily fluctuations in BTP's performance against its target.

4.4 LS, NE and NW Areas are currently achieving their YTD disruption targets. LN Area is over target by the narrowest of margins, just 83 LMs (0.1%). WW Area's 63,000 LMs to date are 2,000 (3%) more than its YTD target, largely as a result of the three incidents listed in paragraph 4.3. Despite having the lowest number of LMs to date (15,000), SC Area is currently exceeding its target by the largest margin: 4,300 LMs (41%). SC's target reflects its good performance in 2012-13 when its LMs were less than 4% of the national total. This year it has not experienced any incidents causing over 1,000 LMs, but has had 23 causing over 100, including two over 500: a trespasser in North Tunnel, Edinburgh on 3 April (720 LMs) and vandalism to the infrastructure near Barrhead on 11 June (671).

¹ Vandalism / theft, Cable vandalism / theft, Level crossing incidents, Level crossing misuse, Trespass, Fatalities / injuries (either on or off platform), Disorder / drunks.

4.5 The principle reason for the continuing reduction in LMs is the success of BTP led initiatives to combat metal theft. Both cable theft offences and the LMs attributed to them fell sharply during 2012-13, and have continued to fall in 2013-14. NWR attributed 66,000 LMs to cable incidents during April - June 2012, but only 13,000 in 2013.

BTP's Fusion Intelligence Unit (FIU) has continued to co-ordinate the national effort to combat metal theft by, for example:

- working closely with other Forces, both in the UK and, where appropriate, overseas;
- co-ordinating the intelligence and activities of participating agencies, including NWR, Train Operating Companies (TOCs), Environment Agency, HMRC, BT Openreach;
- organising National Days of Action. The most recent, on 15 May, involved 28 Forces, 1,304 officers and 254 visits to scrap metal dealers (SMDs). It led to 113 arrests, the seizure of 90 vehicles and the recovery of 7 tonnes of cable, a tractor, an Ivor Novello music award and three bicycles;
- enforcing compliance with relevant recent legislation: The Legal Aid, Sentencing and Punishment of Offenders Act, which received Royal Assent on 1 May 2012, and the Scrap Metal Dealers Act 2013, which received Royal Assent on 28 February 2013.

As a result of these and other initiatives, live cable offences recorded by BTP fell by 56% in 2012-13, and a further 55% during the first quarter of 2013-14, from 184 to 83.

N2 Average fatality clearance times to be less than 90 minutes

4.6 Another contributory factor to the reduction in LMs is BTP's improved management of fatalities. LMs attributed to persons being hit by a train fell by 21% in 2012-13, and have fallen by a further 9%, to 81,000, during the first quarter of 2013-14.

4.7 In previous years BTP's 90 minute fatality clearance target has only applied to fatalities initially classified as non-suspicious. In 2013-14 it has been extended to include unexplained fatalities which, historically, have average clearance times of about 140 mins.

4.8 Despite this extended scope, BTP achieved an average clearance time of 74 minutes during Q1, an improvement on the 78 minutes achieved during the same period last year.

-
- 4.9 All Areas are achieving the 90 minute target except SC Area. SC Area had five fatalities during the quarter. Two were not cleared within 90 minutes:
- Irvine, 16 April. A remote location and the body was spread over 300m: 133 mins.
 - Markinch, 2 June. A remote location: 98 mins.
- 4.10 The driver for these improvements was last year's development and implementation of a revised Fatality Guidance Manual. The manual was produced following a comprehensive review of fatality management procedures; it clarifies roles, responsibilities, procedures and the required liaison with HM Coroners, the Procurator Fiscal, Home Office Pathologists and NWR. BTP continues to review the Manual to ensure its recommended practices reflect lessons learnt from operational experience.
- 4.11 BTP is also continuing to work closely with NWR and the Samaritans on the National Suicide Prevention Steering Group which is aiming to achieve a 20% reduction in suicides on the railway between 2009 and 2014. Actions already initiated by the Suicide Prevention and Mental Health team (SPMH) team include:
- research and analysis to identify and target high risk locations;
 - all officers are encouraged to complete the Mental Ill Health e-learning course, and several officers have already attended courses on managing suicidal contact developed with the Samaritans;
 - production, with the University of Oxford, of an aide memoire to assist officers dealing with persons suspected to be at risk of suicide;
 - active participation on NHS commissioning forums to introduce and maintain awareness of suicide and mental health issues with health and social care providers.
- 4.12 In December 2013 a new pan-London policy in regards to Section 136(1) of the Mental Health Act 1983 will come into effect, leading to more coordinated, efficient practices throughout London between BTP, Mental Health Trusts, the Metropolitan Police and the London Ambulance Service.
-

N3 Reduce notifiable crime (excluding police generated)

Table 2: Recorded offences per day for notifiable crime groups for selected periods

	Full years				2012-13, by Quarter				2013-14
	09-10	10-11	11-12	12-13	Q1	Q2	Q3	Q4	Q1
VAP	22.9	22.4	21.6	22.3	21.4	23.5	21.7	22.4	22.2
Sexual	2.5	2.6	2.8	2.5	2.6	2.6	2.6	2.4	2.6
Criminal Damage	15.7	13.7	10.7	9.5	10.1	8.9	9.5	9.3	8.9
Serious Line of Route	4.7	4.1	3.8	3.3	3.5	4.2	2.8	2.6	4.2
ToPP	44.4	45.6	40.5	47.4	42.4	45.7	52.5	48.9	42.0
Vehicle / cycle crime	22.0	22.1	23.8	20.4	20.1	27.5	19.4	14.3	20.1
Robbery	1.9	1.9	1.8	1.5	1.7	1.4	1.6	1.1	1.4
Theft Rly/Comm Prop.	16.2	18.7	16.3	13.2	14.2	13.1	12.8	12.9	12.5
Ser. Public Disorder	18.7	17.6	13.8	13.1	13.2	14.5	12.0	12.5	13.5
Serious Fraud	2.5	2.7	2.4	2.5	2.4	2.6	2.5	2.6	2.0
Drug offences	16.3	11.8	10.0	9.5	8.9	10.4	8.3	10.4	11.3
Other Notifiable	2.3	2.3	2.3	2.6	2.5	2.9	2.6	2.4	2.7
Total Notifiable	170.2	165.6	149.9	147.6	143.0	157.4	148.1	141.9	143.3
Selected subsets									
Notifiable, excl.PG	152.2	152.5	139.1	137.2	133.3	145.9	139.1	130.4	131.1
Live cable (J29 only)	2.4	3.8	3.1	1.3	2.0	1.4	1.1	0.8	0.9
Non-live cable (J30)	2.8	3.7	3.4	2.1	2.3	2.2	1.7	2.1	1.7
Cycle crime	14.5	16.0	18.4	15.8	15.7	22.4	14.9	10.2	15.8
Motor crime	7.4	6.1	5.4	4.5	4.4	5.1	4.5	4.1	4.2

4.13 In 2012-13 BTP achieved a 2% reduction in recorded notifiable offences (excluding police generated), the ninth consecutive annual reduction. BTP's 2013-14 target is to achieve a further reduction of 3%.

4.14 In Q1 BTP narrowly achieved its target, recording 11,930 offences, 184 (2%) fewer than its YTD target.

4.15 LS, LU and WW Areas are achieving their YTD targets; LN, NE and NW are within 5% of theirs. SC Area's 444 offences to date are 59 (15%) more than its YTD target. Its increase in offences since last year is spread across the crime groups: the largest increases are for ToPP (up by 15 offences to 96), serious fraud (up 11 to 19) and serious line of route (up 11 to 44). SC Area's 2013-14 target is based on its notifiable offences in 2012-13, when it reduced offences by 16%, significantly more than the 2% national average. As SC Area is the smallest Area, with just 3% of BTP's notifiable offences, its offence numbers tend to fluctuate more than the other Areas.

Table 3 Theft of Passenger Property, April - June, by Area

Area	Q1 2012	Q1 2013	Change	% change
LN	703	805	+ 102	+ 15%
LS	671	670	- 1	- 0%
LU	1,672	1,434	- 238	- 14%
NE	219	263	+ 44	+ 20%
NW	192	220	+ 28	+ 15%
SC	81	96	+ 15	+ 19%
WW	321	336	+ 15	+ 5%
BTP	3,859	3,824	- 35	- 1%

4.16 The daily crime rates for each notifiable crime group, annually since 2009-10 and quarterly during 2012-13 and 2013-14, are listed in Table 2.

4.17 Table 2 shows that offence rates for most crime groups fell in the first quarter of 2013-14:

- The fall in cable theft rates, affecting both live and non-live offences, has already been covered in paragraph 4.5;
- Crime rates for Criminal Damage, Serious Fraud and Motor Crime, all low in 2012-13, have continued to fall in 2013-14.

4.18 Table 2 also shows that ToPP fell to 42 offences per day during the first quarter of 2013-14. This is 20% lower than the peak in Autumn 2012, and 11% lower than 2012-13 as a whole, but it remains above the 40.5 daily rate achieved in 2011-12. Also, as Table 3 shows, the national reduction between Q1 2012 and Q1 2013 is entirely due to LU Area; the number of offences has increased in all the other Areas except LS. The reduction in LU is due to Operation Magnum, a Pan-London, anti-theft operation, led by LU Area and launched in March 2013. Since the end of Q1, Operation Magnum has been launched nationally: as a result theft rates are likely to fall across BTP over the coming months.

4.19 Despite the overall reduction in notifiable crime, a few crime rates have risen slightly during the first quarter:

- The rate of VAP is 4% higher than during the same period last year. This is partly because the rate in Q1 2012 was comparatively low; the Q1 2013 rate is lower than the full year rate for 2012-13 (see Table 2).

- Serious Line of Route (LoR) offences also rose during the first quarter, by 57 since the same period last year, to 379. The number of these offences is not large, but the rise affected all Areas. The rate of LoR offences normally increases in Spring and Summer (see Table 2) but this year's rise seems to have peaked earlier than usual.
- BTP will continue to monitor VAP and LoR rates and, if they remain high, will identify causes and key locations and take appropriate action.

N4 Notifiable Crime Detection Rate

4.20 BTP achieved a 33% detection rate for notifiable offences in Q1, slightly better than its 31% target and the 30% it achieved during the same period last year.

4.21 The improvement was spread across all crime groups, with the largest improvements for crimes with comparatively small numbers: Sexual Offences (detection rate up from 31% to 38%), Robbery (44% to 50%) and Criminal Damage (17% to 22%). The detection rate for ToPP, critical to achievement of the target because it accounts for over 30% of notifiable offences, improved from 6% to 7%.

4.22 The London Areas and WW Area are achieving their notifiable detection rate targets. NE and NW Areas are within two percentage points of their target. SC Area is achieving 37% against a target of 40%, the second highest. SC would be achieving its target with an additional 13 detections and expects to be achieving it before the end of the year.

N5 Expenditure on Frontline Resources

4.23 BTP is targeted to spend at least 58% of its 2013-14 budget on Frontline Resources. Progress towards this target will be calculated quarterly; the financial data to calculate Q1 progress will be available late in July.

N6 Sickness

4.24 BTP's overall sickness rate during Q1 was 1.74 days per person, slightly below BTP's YTD target (1.83), but slightly higher than for the same period last year (1.63).

- 4.25 The employee group with the lowest sickness rate (1.65 days per person) is police officers. However, there is a wide variation between the rates for the London Areas plus FHQ (which average 1.21) and the non-London Areas (2.46). The difference is entirely due to long-term sickness, 0.79 days per officer in the London Areas, 2.15 outside London.
- 4.26 Staff sickness would be comfortably within target but for high rates at LS Area (3.73) and WW Area (2.29). These rates are also due to long-term sickness: 3.33 days per person at LS, 2.15 at WW.
- 4.27 The only employee group not currently achieving the target is PCSOs. There is a sharp contrast between LU and NE Areas, with rates of less than one day per PCSO, and the other Areas, whose rates are all higher than two days per PCSO. Long-term sickness is again the principle reason for these differences.

N7 TDR Employees

- 4.28 In 2013-14, BTP is targeted to have 90% of employees who have had a Temporary Duty Restriction (TDR) back on full-time working within four weeks.
- 4.29 To date, 100 BTP employees have been on TDR duties; 95 of them returned to full time working in less than four weeks.

N8 Visibility between 7pm and 3am

- 4.30 In 2013-14 BTP's visibility target is to maintain the number of hours worked between 7pm and 3am by officers and PCSOs on its neighbourhood policing teams (NPTs) and response teams.
- 4.31 In Q1 officers and PCSOs worked 250,000 hours that met the above visibility criteria. This was 8,000 (3%) hours short of BTP's YTD target.

4.32 SC, LN and LS Areas achieved their Q1 targets; LU and NE are not currently achieving theirs, but by a narrow margin. The largest shortfalls are at WW Area (by 5,000 hours, 17% of its YTD target) and NW Area (4,300 hours, 12%).

N9 Detection Rate for Notifiable Public Order Offences

4.33 BTP achieved a 56% detection rate for notifiable Public Order offences in Q1, three percentage points short of its 59% target, but slightly better than the 54% it achieved during Q1 last year.

4.34 At present LU and NE are the only Areas achieving their public order detection rate targets, although LN Area is just two percentage points short. The other Areas are all at least nine percentage points short of their targets.

4.35 BTP's detection rates normally improve during the year; its month by month detection rate for notifiable public order offences has already improved from 51% in April, to 57% in May and 60% in June. Further improvement is expected as Areas increase their focus on public order detections.

5. PERFORMANCE AGAINST LOCAL TARGETS

5.1 Areas are currently achieving 24 of the 42 Local Targets.

5.2 LN Area is achieving all seven of its Local Targets. It continues to improve its management of fatalities on multi-track lines: in Q1 its average time for partial re-opening of the tracks was 27 minutes, against a target of 45 minutes, thereby reducing disruption to the railway. LN's targets for staff assaults, ToPP and its rail staff abuse detection rate are all being achieved by a narrow margin; the Area will need to maintain its focus on these Areas to ensure it continues to achieve these targets.

-
- 5.3 LS Area is achieving five of its six targets. The only target it is not achieving is its staff assault detection rate: it has recorded 305 offences to date and detected 125. A further 24 detections are needed to reach its 52% target. LS has reduced disruption by targeting the partial re-opening of multi-track lines after fatalities: its current average time is 29 minutes (target: 50).
- 5.4 LU Area is achieving five of its six targets. A notable success is ToPP: LU's 1,434 offences to date are 110 (7%) fewer than its YTD target. LU is failing its lost customer hours target by 202,000 hours (67%) because of several serious incidents during the rush hour. In April six suicides each lost over 10,000 customer hours, including three at:
- Stratford on 9 April which caused 67,000 lost customer hours
 - Leyton on 5 April which caused 63,000 lost customer hours
 - Euston on 17 April which caused 40,000 lost customer hours
- LU comfortably achieved its target in May, but experienced two more serious rush hour incidents during June:
- a trespasser at Wembley Park on 19 June caused 40,000 lost customer hours
 - a suicide at Warren St on 27 June caused 40,000 lost customer hours.
- 5.5 NE Area is currently achieving two of its five Local Targets. NE Area's 263 ToPP offences to date are eight more than its YTD target; helped by the national launch of Operation Magnum, the Area expects to be achieving this target by the end of Q2. NE was achieving its disruption target until it experienced two serious incidents in June:
- cut cable near Durham on 14 June: 3,528 LMs
 - a suicidal trespass on 24 June: 1,921 LMs
- 5.6 NW Area is currently achieving two of its six Local Targets. The four targets NW area is not achieving are all recoverable; it is:
- one staff assault over its YTD target;
 - 26 ToPP offences over its YTD target;
 - four violent offences over its YTD target;
 - three joint operations short of its YTD target.
-

5.7 SC Area is currently achieving two of its six Local Targets. The Area expects to convert non-staff costs to frontline costs, and increase level crossing detections, later in the year. However, its LMs are currently double its YTD target (also see paragraph 4.4) and its officer sickness rate is 70% higher than the national average. Recovering these two targets will be challenging.

5.8 WW Area is currently achieving one of its six Local Targets. All of the other five targets are recoverable:

- WW's 191 aggression towards staff offences are just 12 more than its YTD target;
- WW's 304 ToPP offences are just 15 more than its YTD target;
- football offender detections will increase after the season starts in August;
- ASB offender detections will increase as ASB initiatives take effect;
- WW has recorded 18 staff assaults in the Welsh Sector, achieving 11 detections. With one more detection it would have been achieving its 65% detection rate target.

6. NON-NOTIFIABLE OFFENCES

6.1 Although the number of notifiable offences recorded by BTP continued to fall during the first quarter of 2013-14, the number of less serious non-notifiable offences recorded rose by 2,528 (27%), from 9,469 offences to 11,997.

6.2 The increase is primarily due to police generated offences. Detections rose by a similar amount, from 4,544 to 6,892, indicating a detection rate of nearly 100%, which is to be expected with police generated offences. The largest increases were for:

- **RTA and vehicle offences:** up 921 (78%) from 1,179 to 2,100. The largest increases were in LS (up 381), NW (286), NE (118) and SC (60). These increases are primarily related to increased use of Enforcement Vans at level crossing. A few vehicle offences are a side effect of the metal theft Days of Action.

- **Travel Fraud offences:** up 1,247 (36%) from 2,244 to 3,491. The largest increases were in LU (up 636), LS (382) and NW (106). The majority of these offences are at ticket barriers and are related to TOCs' revenue protection initiatives.
- **Less serious public order offences:** up 301 (10%) from 2,785 to 3,086. The largest increases were in LS (up 135), LU (115) and SC (111).

7. FHQ KEY PERFORMANCE INDICATORS

Force Headquarters has 66 Key Performance Indicators (KPIs), covering 15 different departments, that are reviewed monthly at Service Excellence Board (SEB).

At the latest review, covering April-May 2013, performance figures for 57 KPIs were available; 36 (63%) were being achieved.

Appendix D, attached as a separate document, lists each of the 66 KPIs together with the performance data for April-May.

Table 4 Number of 2013-14 KPIs each department is achieving

Department	No. of KPIs	April-May No. Achieving	April-May % Achieving
Central Operations	2	2	100%
Finance and Procurement	2	2	100%
Information Management	4	4	100%
Justice Directorate	5	4	80%
Strategic Development	5	4	80%
Media and Marketing	4	3	75%
Technology	4	3	75%
Analysis and Performance	3	2	67%
Territorial Policing and Crime	5	3	60%
Contact	4	2	50%
Corporate Services	2	1	50%
Scientific Support Unit (SSU)	4	2	50%
People and Development	6	2	33%
Professional Standards Department	3	1	33%
Counter Terrorism	4	1	25%

7.1 Departments meeting or exceeding performance targets

The Central Operations department are required to review 100% of Business Impact Analysis documents and Business Continuity Plans and conduct year tests of these plans. All necessary reviews and tests for April and May were carried out.

Finance and Procurement are required to produce a pack for Financial Review within 8 working days from each financial period-end closure. After the end of period 2, the pack was produced in 8 working days.

Three of Information Management's KPIs are to respond to 100% of Data Protection Act requests, Freedom of Information Act requests and Environmental Information Regulation requests within the agreed timescales. All requests received a response on time including the 22 FOI requests received in both April and May.

The Justice Directorate have been tasked with achieving 95% attendance in court of all warned witnesses and for attendance to be no less than the national average. In both April and May, BTP saw 100% attendance of warned witnesses which was 12% higher than the national average which remained at 88%.

7.2 Further improvement required

Counter Terrorism has a KPI to attend 90% of Specialist Response Unit related calls within the M25 within 20 minutes and another KPI to clear 90% of these calls within 30 minutes. April and May figures show that only 75% of calls were attended and 89% were cleared within the timescales set. However the calls that took longer to deal were due to uncontrollable issues regarding extended travelling distance and a volume of items having to be assessed.

The Professional Standards Department have a target to conduct 90% of investigation in fewer than 90 days however over the April-May period, only 68% of investigations met the stated timescale.

People and Development (P&D) have a target whereby to reduce staff sickness to less than 7.3 days per person during 2013-14. As of the end of May, the year-to-date target was 1.22 days however days lost per person stood at 1.67. Another KPI monitored by P&D is to

reduce the number of posts where first time recruitment is unsuccessful to less than 5%. Over the April-May period 20% of recruitment was unsuccessful first time round with a peak of 26% seen in May alone.

One of Territorial Policing and Crime's KPIs is for the Major Investigative Unit's detection rate to be greater than 76%. The detection rate for the April-May period was 30% with three detections out of 10 offences.

8. CRIMINAL JUSTICE

The Criminal Justice (CJ) performance measures were implemented to improve the efficiency and effectiveness of the force Criminal Justice System (CJS) by identifying impediments in order to resolve. There is a need to correlate the pre-charge performance data with the post-charge prosecution success to ensure BTP has confidence in the 'right first time' process.

CJ performance data is split into two sections (Pre-Charge & Post-Charge) with four fundamental measures for each section as detailed below:

Pre-Charge

Bail

The purpose of this measure is to determine bail culture internally and externally and to identify any potential blockers in the process in terms of evidential delivery, local HO force service etc. The number of detainees bailed and re-bailed using CRIME and internal Custody records are measured against charge figures. The number of bails issued should be no more than 50% of total charge and bail combined.

Table 1 Bail ratios at BTP Custody suites have remained at below 50% in the last three months.

Table 1 - Number of Persons 'Charged and Bailed'			
Month	Charge & Bail	BTP	
Mar-13	BTP Charge & Bail	545	
	BTP Bail (Re-bail)	226 (3)	41%
Apr-13	BTP Charge & Bail	534	
	BTP Bail (Re-bail)	224 (6)	42%
May-13	BTP Charge & Bail	499	
	BTP Bail (Re-bail)	197 (6)	39%

Return to Officers (RTO)

This measure monitors the number of case-files (Charge, Summons and Diversion) files returned to officers by the Justice Units for rework, to address quality or evidentiary issues. Charge files returned by the Justice Units should be kept to a minimal. The number of files returned should not be any more than 15%.

Table 2 - The number of case-files returned has fallen by 61% (57 to 22) since March across BTP whilst percentage rates of case-files returned have remained minimal, with no areas returning more than 15% of cases received.

Table 2 - Return to Officer Case-files by File Type				
Month	Area	BTP		
	Case Type	No. Cases Received	No. Returned	% Returned
Mar-13	Charge	561	3	1%
	Summons	455	51	11%
	Diversions	798	3	0%
	Cases without a disposal	347	0	0%
	Total	2161	57	3%
Apr-13	Charge	598	0	0%
	Summons	421	51	12%
	Diversions	578	0	0%
	Cases without a disposal	393	0	0%
	Total	1990	51	3%
May-13	Charge	643	0	0%
	Summons	416	19	5%
	Diversions	696	3	0%
	Cases without a disposal	214	0	0%
	Total	1969	22	1%

Disposal Types

The number of disposals by Force Crime Group is measured to determine the levels of Charge, Summons and Out of Court disposals are issued against offence type to identify opportunities to improve disposal decisions.

Victim Care

To ensure compliance with the Victims Code of Practice (VCoP), this indicator measures the timeliness of OIC updates to victims against the time-frames outlined in the VCoP. VCoP requires OICs to update victims with the progress of an investigation, if a case is closed, an offender arrested, bailed or charged or has been dealt with by an out of court disposal.

Table 3 - The number of OS victims has risen in the last quarter, with 85% (35 of 41) OS victims pertaining from LN (17) and WW (18). The number of vulnerable victims has also risen albeit slightly.

Table 3 - Victim Care - Outstanding Notifications				
Area	BTP			
Date (As of)	No of Outstan ding Victims		Vulnerable /Intimated Victims	
Mar-13 (11/04/13)	14		1	
Apr-13 (02/05/13)	25		3	
May-13 (31/05/13)	41		5	

Post-Charge

Witness Care

This measures the post-charge service given to victims and witnesses by Justice Units highlighting the level of Witness Care provided by BTP. It monitors witness attendance at court of which the attendance target for warned witnesses is 95% and no less than the national target. The number of Full Needs Assessments (FNAs) and Referrals offered to by each Witness Care unit is also monitored of which there is a 90% target.

Table 4 - BTP have maintained an excellent victim and witness attendance rate, with a 100% attendance rate in the last two months. BTP have remained consistently higher than the national average which has remained at 88% over the last quarter.

Table 4 - Victim and Witness Attendance			
Month	Victim/Witness Attendance	BTP	National
Mar-13	Warned	704	18287
	De-warned	173	N/A
	Attended	527	16167
	Non-attendance	4	2120
	% Attendance Rate	99%	88%
Apr-13	Warned	611	17207
	De-warned	173	N/A
	Attended	437	15146
	Non-attendance	1	2061
	% Attendance Rate	100%	88%
May-13	Warned	673	17750
	De-warned	252	N/A
	Attended	421	15619
	Non-attendance	0	2131
	% Attendance Rate	100%	88%

Table 5 - BTP Justice Units achieved their target of 90% in offering Full Needs Assessments to fully bound public witnesses in two months out of three in the last quarter, whilst in April they did not achieve their target by 1%.

Table 5 - Victim and Witness Support to fully bound public witnesses					
Month	Full Needs Assessments (FNA) and Referrals	BTP			
		FNA		Referrals	
Mar-13	Administered	313	91%	300	87%
	Not Administered	2	0%	4	0%
	Exemptions	28	8%	39	11%

	Not Administered	0	0%	0	0%
	Exemptions	28	8%	49	14%
	Fully bound public witnesses	338			

Warrant Management

This measure monitors the effective management of warrants by showing the number of warrants issued, executed and outstanding. The number of executed warrants should be higher than those issued; to keep the number of outstanding warrants at a manageable level.

Table 6 - In the last quarter, BTP have had more warrants issued than executed, which has resulted in the total number of outstanding warrants across the force to increase. This may be an issue of where warrants have been unable to be executed due to suspects either not being in this country or where old warrants have require court approval for it to be withdrawn.

Table 6 - Warrant Management - No of Warrants issued; executed and outstanding by Area				
Area		BTP		
Month	Warrant Type	Issued	Executed	Outstanding
Mar-13	Category A	2	3	11
	Category B	74	59	336
	Category C	80	80	150
	Total	156	142	497
Apr-	Category A	3	2	12

13	Category B	73	63	346
	Category C	78	84	157
	Total	154	149	515
May-13	Category A	1	18	11
	Category B	70	53	358
	Category C	76	59	161
	Total	147	130	530

PNC Performance

This measures the timeliness of court results onto PNC, after receipt at the Justice Unit. There is a national 7 working day target of updating offences on PNC with an internal target of 3 working days for Justice Units.

Table 7 - BTP have resulted 99% of all cases within 3 days; well within the national working target of 7 days. Just 12 cases have been resulted out of time in the last quarter, which highlights the good work of each Justice Unit.

Table 7 - PNC Results at Justice Units and PNC Bureau				
Area			BTP	
Month	Source	Result Within	No	%
Mar-13	Justice Units	Within 3 Days	1269	100%
		Within 7 Days	5	0%
		Out of Time (More than 7 days)	0	0%
		Total Resulted	1274	100%
Apr-13	Justice Units	Within 3 Days	1296	100%
		Within 7 Days	0	0%
		Out of Time (More than 7 days)	5	0%
		Total Resulted	1301	100%
May-13	Justice Units	Within 3 Days	1249	98%
		Within 7 Days	16	1%
		Out of Time (More than 7 days)	7	1%
		Total Resulted	1272	100%

CPS Charging Performance

This measure is a measurement of CPS prosecution data, detailing successful outcomes versus unsuccessful outcomes. Unsuccessful outcome rates for both Magistrate and Crown Courts should be no less than 5% points greater than the national average, highlighting BTPs case success through the courts.

Table 8 - BTPs successful outcome rate at Magistrates Courts has continuously been over 90% in the last quarter only failing to less than 5 percentage points greater than the national average in April. The outcome rate has risen consistently each month in this quarter.

In terms of outcome rates at Crown Courts, BTP have performed less favorably especially in March where the outcome rate was 69%, 12 percentage points lower than the national average. However in April and May, BTPs outcome rate has risen although still slightly under the national average.

Table 8 - Successful and Unsuccessful Outcomes at Magistrate and Crown Courts											
Area		BTP						National			
Month	Outcome	MC			CC			MC		CC	
Mar-13	Unsuccessful Outcomes	83	10%	↓	29	31%	↑	7853	15%	1558	19%

MM3	Media and Marketing	Increase number of BTP staff with Twitter accounts.	>20	20
MM4	Media and Marketing	Increase the number of page views recorded on BTP's Internet site.	149,830	220,264
MM5	Media and Marketing	% Witness appeals assisting with investigations turned around within 10 working days.	100%	100%
SDD1	Strategic Development	% of incidents rated as 'good' (those identified and classified under Home Office Counting Rules and the National Crime Recording Standards as Crime Related Incidents).	≥ 90% rated as 'good'	54%
SDD2	Strategic Development	% delivery of completed feasibility and initial concept assignments, reports and projects in line with terms of reference and standard agreed by sponsor.	100%	100%
SDD3	Strategic Development	Delivery of all Quality of Service (QoS) data products to Area contacts within 10 working days of the start of each month (days).	≤10 days	7 days
SDD4	Strategic Development	Timely development of all corporate policy from commissioning to publication (average number of months)	≤3 months	1.8 months
SDD5	Strategic Development	Minimise litigation referral rate (%) on all open claims.	<8%	6.2%
PSD1	PSD	% investigations (including adjudication time) by PSD conducted in under 90 days	≥90%	68%
PSD2	PSD	Average working days to complete basic vetting checks.	< 10 days	7 days
PSD3	PSD	Average working days for Complaints handled by Areas	< 40 days	40 days
SSU1	SSU	% Priority 1 fingerprint submissions (murder to armed robbery) processed within 24 hours	≥99%	100%
SSU2	SSU	% Priority 2 fingerprint submissions (cable theft to graffiti) processed within 4 days	≥92%	88%
SSU3	SSU	% Priority 3 fingerprint submissions (all other cases) processed within 28 days	≥87%	94%
SSU4	SSU	% attendance of CSEs to suspicious and unexplained fatalities within 60 mins	≥60%	0%

Criminal Justice Data Pack

Data: March - May 2013

Introduction

The Criminal Justice Review in 2012 focused on change recommendations to improve the efficiency and effectiveness of the force Criminal Justice System (CJS).

The force Criminal Justice performance data is in two sections:

Section 1 - Pre-charge	Description
BTP Bail and Re-bail	Number of Detainees bailed and re-bailed using CRIME and internal Custody records measured against Charge figures to determine bail culture internally and externally and to identify any potential blockers in the process. Bails issued ratio should be no more than 50% .
Return to Officers (RTO) Case-files	The number of case-files (Charge, Summons and Diversions) returned to officers by the Justice Units due to issues with file build in accordance with quality, evidence and CPS requirements. Number of Charge files returned should be minimal. Number of files returned should be no more than 15%.
Disposals	The number of Arrest disposals by Force Crime Group to determine the levels of Charge, Summons and Out of Court disposals against offence type to identify opportunities to improve disposal decisions.
Victims Code	Timeliness of OIC updates to victims against the time-frames outlined in the Victims Code of Practice. To ensure compliance with the Victims Code of Practice (VCoP), officers are to update victims with the progress of an investigation every 28 days and 5 days (1 day if the victim is deemed vulnerable/intimidated) if a case is closed, an offender arrested, bailed or charged or has been dealt with by an out of court disposal.
Section 2 - Post-charge	Description
Witness Care	The level of post-charge service given to victims and witnesses by Justice Units. Attendance target for warned witnesses is 95% and should be no less than the national target, highlighting the level of Witness Care provided by BTP. There is a 90% target for the number of Full Needs Assessments (FNAs) and Referrals offered by each Witness Care unit.
Warrant Management	The effective management of warrants by showing the number of warrants issued, executed and outstanding. The number of executed warrants should be higher than those issued; to keep the number of outstanding warrants at a manageable level.
PNC Performance	The timeliness of updating PNC with court results after receipt at the Justice Unit. There is a national 7 working day target of updating offences on PNC with an internal target of 3 working days for Justice Units.
CPS Charging Performance	Measurement of CPS prosecution data, detailing successful outcomes versus unsuccessful outcomes. Unsuccessful rates for both Magistrate and Crown Courts should be less than 5% points greater than the national average, highlighting BTP's case success through the courts.

Notes

- The data table indicates the number of persons 'charged and bailed' through Custody suites (BTP and HO) in order to determine the bail culture internally and externally and manage the bail as a realistic ratio.
- The figures do not include out of court disposals administered in Custody suites as this data is only available internally and does not enable a 'like for like' comparison across all Areas.
- LU Area has two further Custody suites: 1) Wembley Park - used on an ad hoc basis for events/operations and a business continuity site. 2) Hammersmith - closed for over 12 months for refurbishment. (Hammersmith opened on 22/04/2013; West Ham closed on 21/04/2013 until further notice).

	Total	1206	3	4	0	7	1%	317	4	1%	292	5	2%	154	6	4%	1969	22	1%

Notes

- The above data is extracted from the Justice Administration System (JAS) to identify the number of case-files that are returned to officer (RTO) by the Justice Units; due to issues with the file build in accordance with quality, evidence and CPS requirements.
- Cases are broken down into 4 categories: 1) Charge - Charge decision made 2) Summons - offender reported for process, 3) Diversions - out of court disposal; and 4) Cases with no disposal - open cases with an identified offender.
- Cases with no disposals are cases that have been created with an offender and offence present but without a disposal. This is normally the case when the Justice Unit has yet to receive full case file papers.
- London RTO figures have been separated into its three areas using OIC details and their location as recorded on the Origin Discoverer system.

Notes

- The above table highlights the number of arrests that have been raised by disposal type. This is to identify the level of Charge, Summons and Out of Court disposals against offence type to identify if there are any opportunities to improve disposal decisions.

Notes

- The table above highlights the number of victims and the number of vulnerable/intimidated victims by Area, where victims have not been updated in accordance with the Victims Code of Practice (VCoP). The data in this table is mobile and continually alters throughout the year.
VCoP defines a level of service that all victims of crime must receive, including regular progress updates. The quality of service to our victims of crime is measured by OIC compliance of progress notifications via the Victims Portal on CRIME:
- Victims are to be updated with progress every 28 days.
Victims are to be updated within 5 days when a case is closed, offender arrested, bailed, charged, or has been dealt with by way of out of court disposal (within 1 day for vulnerable or intimidated).

Notes

- Justice Units have been managing post-charge victim and witness service delivery since the implementation of No Witness, No Justice (NWNJ). All Justice Units are now recording corporate and enhanced statistics. The two tables above indicate the level of post-charge service given to victims and witnesses by Justice Units and the overall court attendance rate.
- Table 1 - % Attendance Rate Is calculated by the number of de-warned witnesses combined with the number of witnesses that attended court; divided by the number of witnesses warned to attend court.
- Table 1 - Warned figures include all witness types including officers, experts, public, staff and youth witnesses.
- Table 2 - highlights the level of post-charge service given to fully bound victims and witnesses in relation to full needs assessments (FNAs) and referrals.
- The London Area CJU and Wales & Western have an internal target of 90% completion for FNAs for all fully bound witnesses. This is to ensure that staff are adhering to NWNJ and VCoP obligations and providing the best possible service.

Notes

- This data, supplied by JUs, shows the number of FTA warrants issued and executed each month, and the number that remain outstanding.
- The number of outstanding warrants each month may vary due to warrants being issued in a different month to which the JU receives them. This is common when a warrant is transferred from a local HO force. The number of outstanding warrants also takes into account warrants that may have been withdrawn but not executed.
- There are three categories of warrants (A,B,C) and is dictated by the severity of the offence. Category A warrants are for Indictable offences, that can only be heard at Crown Courts. Offences include Conspiracy, Kidnap and Manslaughter for example. Category B warrants are for Either Way offences, that may be tried at Magistrates or be dealt with by a jury trial at Crown Court. Offences include Affray, Criminal Damage and Breach of ASBO for example. Category C warrants are for Summary offences, which can be heard at Magistrate Courts. Offences include Common Assault, Fare Evasion and Drunk and Disorderly for example.
- Execution timescales are as follows:
 - Category A - 14 Days
 - Category B - 21 Days
 - Category C - 28 Days

Notes

- Data from JAS highlights the timeliness of updating PNC with court results after receipt at the Justice Units. Each Justice Unit measures their performance in terms of PNC from when they access verified data on Libra (Criminal Justice court system for England & Wales) to when they update PNC.
- In accordance with PNC operating procedures it is necessary to ensure resulting of case results onto PNC in a timely manner. The above figures show the number of offences updated on PNC within the national target of 7 working days, those that exceed this target and the remaining that are outside the target time frames. London CJU have an internal target of 3 working days for updating offences.
- Results within time includes offences that have been updated on PNC by Bichard 7 (results are updated automatically) and other HO forces. The above figures excludes any cases that are not on PNC or have already been weeded such as non-recordable offences.
- Data from PNC Bureau highlights the PNC performance monthly summary provided by the PNC Bureau. These results are measured on the time cases are listed to be heard until the time the disposal is added on PNC. The current PNC Code of Practice target is 75% of all cases to be resulted within 7 days of Police being advised of
- As PNC can only produce figures from the date of court disposal, the only true measure of PNC performance comes from each Justice Unit recording and maintaining records of when a result is received from court and to when it is added onto PNC.

Notes

- The above data is provided by CPS on a monthly basis, and highlights the number of case files received by CPS, those not suitable to proceed to court (i.e. not in the public interest), and the successful and unsuccessful outcomes of those proceeded with to Magistrates (MC) and Crown Court (CC).
- CPS data covers finalised charge proceedings only. Appeal, advice, committals for sentence and pre-charge decision proceedings are excluded. CPS data is recorded and published in accordance with CPS requirements, whereby the CPS defines 'successful' outcomes as those that have resulted in a court judicial disposal.
- Table 1 highlights the number of cases received each month by CPS. Cases not proceeded with are the number of cases that were brought to CPS for charge, but did not end up going to court.
- Table 2 highlights the number of successful and unsuccessful outcomes and the number of defendant cases. Please note that arrows highlight change in successful outcomes only.
- Table 3 shows a breakdown of unsuccessful outcomes.
- There are no current nationally agreed targets for successful and unsuccessful outcomes as police forces and CPS are moving away from set targets. It may be that locally forces have their own internal targets for the outcomes of cases.
