2.3 The Authority’s high-level governance structure is set out below:

3. Roles and responsibilities

Collective roles and responsibilities

3.1 The role of the Authority is to ensure an efficient and effective police force for the railways within a framework of prudent and effective controls which enable risk to be assessed and managed as appropriate. The Act identifies a number of statutory duties to assist the Authority in achieving this overall aim which are described in section 2.2 of this handbook. In fulfilling these statutory duties the Authority is collectively expected to focus on six key areas:

- Strategic Clarity – setting the vision and mission with a focus on long-term capability with all activities directly or indirectly contributing towards the strategy.

⁹ 2003 Act Section 52

¹⁰ 2003 Act Schedule 4, Part 3, s19

¹¹ 2003 Act Section 33 (3-4)

- Commercial Sense – approving the distribution of responsibilities, setting the scheme of delegation, ensuring sound financial management, scrutinising the allocation of financial and human resources to achieve the plan, setting the risk appetite and ensuring controls are in place.
- Talented People – ensuring the Executive and the Chief Officer team has the capability to deliver and plan to meet current and future needs.
- Results Focus – setting the Annual Railways Policing Plan, MTFP and budget and monitoring progress against this and the Strategy.
- Management Information – ensuring clear, consistent comparable performance information is provided to the Authority and used to inform decision-making and drive improvements.
- Professional Standards – living up to Code of Conduct¹², ensuring that matters are dealt with according to statute and policy and challenging non-compliance.

Individual responsibilities

- 3.2 In addition to the above, the Chair has a responsibility to develop productive working relationships, founded on mutual respect and open communication, between all Members of the Authority, the BTPA Executive, the BTP Executive Team and external stakeholders.
- 3.3 The Chair will maintain a high standard of discussion and debate, providing effective, strategic and ethical leadership.
- 3.4 The Chair will ensure that the Authority has effective decision-making processes in place with systems that support Members to take informed decisions based on timely, relevant, clear and reliable high-quality information. Also, that challenge is answered with verification.
- 3.5 The Chair will undertake an annual appraisal with each Authority Member. The appraisal process will address the development needs of the Authority as a whole and those of individuals (see sections 6 and 7).
- 3.6 Individually Authority Members are expected to:
- Maintain an up-to-date knowledge and awareness of issues affecting the policing of the railway network;
 - Monitor, scrutinise and challenge all aspects of BTP performance, in particular to ensure the delivery of planned results against agreed objectives, targets and performance indicators;
 - Participate in any consultative arrangements that the Authority establishes and actively engage in communication and dialogue with the rail industry, Government, passengers and other stakeholders when required;

¹² Annex 2 of the Authority's Code of Governance

- Contribute to decision-making and share responsibility for the Authority's decisions;
- Attend meetings well prepared having read the relevant papers and sought further information, where necessary;
- Represent the views of the BTPA with stakeholders as and when required by the Authority;
- Promote equality of opportunity in work to eliminate unlawful discrimination, both internally within the Authority and the BTP and in the provision of policing services;
- Attend local, regional and national conferences/ seminars/briefings if nominated by the Authority;
- Participate in inspections and audits of the BTP and Authority, as appropriate;
- Assist the Chair in the strategic direction of the Authority and corporate business plans;
- Support the Chair in overseeing the management of the BTP as a whole;
- Be involved in the work of the Authority as required, including membership of any committees, panels or working groups which are established by the BTPA or undertaking a lead role in aspects of work if the BTPA determines that that is an effective way of conducting its business;
- Take an interest in the regional work of BTP, as agreed by the Authority; and
- Comply with all relevant codes of conduct and maintain the highest standards of conduct and ethics and ensure that the Authority operates within the legislative policy and resources framework agreed with the Secretary of State. Members are expected to adhere to the spirit of The Seven Principles of Public Life (Annex 2 in Code of Governance).

4. Time commitments

4.1 Authority Members are remunerated as follows:

- Chair 60 days per year
- Deputy Chair 50 days per year
- Members 30 days per year

4.2 Duties which qualify for remuneration are set out within the Members Allowances Scheme at Annex E. These duties will be captured by the BTPA Executive through regular liaison and formal feedback.

5. Authority and Committee meetings

- 5.1 The Authority's committee structure is detailed in the Code of Governance. This is reviewed annually as part of the board effectiveness review, usually at the end of the performance year.
- 5.2 In addition to Authority meetings, Members will be allocated to one or more committee(s) and/or working group(s) which form part their wider portfolio. The Membership of each committee or working group is set out in Annex C of this Handbook. Members will also be issued will a letter annually confirming their full portfolio responsibilities.
- 5.3 The Authority and its committees must maintain focus on strategy, performance and behaviour and not be diverted by detail. The key to this is to take a risk-based approach to assurance ensuring scrutiny is focused on the areas most requiring attention. Setting an annual work plan and carefully structuring agendas with detailed requirements described for each paper will act as an enabler for this, as well as ensuring the requirement is understood by the author.
- 5.4 This risk-based approach will enable the information requirements to be clearly identified to ensure that the information provided is:
- relevant;
 - integrated (satisfying both internal and external needs);
 - in perspective (presented in relevant time context);
 - timely;
 - comparable;
 - clear; and
 - reliable.¹³
- 5.5 When attending meetings, Members are expected to challenge constructively in their role as critical friend. When a challenge is made Members must ensure that it is followed up with verification backed by evidence. Confidence statements and/or promises should not be accepted in lieu of assurance.
- 5.6 Chairs of committees and groups must ensure that decisions taken and actions agreed are summarised at the end of each agenda item to avoid any misunderstanding or confusion.

6. Portfolios

- 6.1 The objectives of the portfolios are to:
- Provide a mechanism of engagement for Members and staff outside of the formal Authority/committee structure.

¹³ CIMA best practice on information requirements for Board reporting

- Increase visibility and understanding of the Authority's role below Chief Officer (or equivalent).
 - Improve governance and oversight arrangements of the Force by developing the Authority's understanding of local and specific thematic issues.
 - Assist BTP to perform as an efficient and effective force by identifying opportunities to share good practice, innovation and monitor and challenge the management of specific issues whilst retaining a non-executive role.
 - Enable sense checking of information provided via formal meetings.
 - Support Members in carrying out their planning, resource planning and scrutiny functions.
 - Reassure the full Authority that adequate oversight arrangements are in place.
 - Provide a mechanism through which Members can engage with frontline policing and see policy decisions in action.
- 6.2 Members may be assigned to a BTP business area/work stream or geographical region. An explanation of the mechanism for meeting portfolio requirements is provided below.

Transformation (BTP2021) work streams

Purpose

- 6.3 Involvement in specific areas of the BTP's transformation work will assist Members in discharging their duty of having oversight of the delivery of the change programme, including the achievement of cost efficiencies. It will also equip Members to take more informed decisions about funding and/or resource allocation.
- 6.4 Given the significance of the change programme, some Members have been aligned to specific work streams to offer additional exposure to the Authority. This is supplementary to the work of the Transformation Working Group.

Mechanism

- 6.5 Members should seek to establish links with their BTP points of contact through the Member Engagement Manager and/or another identified staff member at the BTPA Executive, with whom they should also work to develop a work plan in partnership with BTP colleagues to deliver the most productive result for all. Contact should take the form of meetings, telephone conversations and/or site visits. Frequency will be influenced by the programme timetable.
- 6.6 Members will be further supported in their role by the provision of high quality and timely briefings in advance of contact.

Specialist business areas

Purpose

- 6.7 Regular oversight and close engagement in the work associated with chosen specialist areas, such as inspections, audit and complaints/claims will provide Members with greater exposure to areas of the business which have the potential to attract risk but can also lead to learning and strategic considerations. Members are expected to act as a critical friend to support successful compliance.

Mechanism

Members should seek to establish links with points of contact through the Member Engagement Manager and/or another identified staff member at the BTPA Executive, with whom they should also work to develop a work plan supported by a timetable. Contact should take the form of regular engagement through meetings, telephone conversations and/or site visits. Due to the nature of the work in scope it is expected that some of contact will be reactive to developments or externally led work programmes.

Geographic alignment

Purpose

- 6.8 The purpose of allocating sub-divisional responsibilities to individual Members is threefold. First it is to provide Members with a forum within which they can have general oversight of the wide range of BTP's operational and organisational activities. Second is to help Members to develop their own knowledge and experience of local policing issues and finally to increase the visibility of the Authority amongst front-line officers and staff.
- 6.9 It is intended that Members incorporate visits and/or meetings with other stakeholders (such as PSA holders or passenger representatives) as part of their geographic work. Members will not be expected to be in a position to provide detailed information about policing to stakeholder contacts; the purpose of this work is to develop Member knowledge and to raise the profile of the Authority among stakeholders. It also provides further engagement opportunities to support the overarching BTPA stakeholder engagement plan.

Mechanism

- 6.10 Members should seek to establish links with BTP divisional points of contact or stakeholders such as railway representatives, Metro-Mayors or Police and Crime Commissioners through the Member Engagement Manager and/or another identified staff member at the BTPA Executive, with whom they should also work to develop a work plan. Contact should take the form regular liaison throughout the year through meetings, telephone conversations and/or site visits.
- 6.11 Whilst Members are expected to share information from each of their visits, which will be formally documented, it is expected that some engagements will have a relatively informal structure. BTP interactions for example may take the form of Members joining officers on operations, on patrol and visiting local police stations to get a real feel for policing on the frontline, supported by a senior divisional officer.
- 6.12 Members will not be expected to be in a position to provide detailed information about policing to stakeholder contacts; the purpose of this work is to develop Member knowledge and to raise the profile of the Authority among stakeholders. It may be useful for Members to establish a list of discussion topics in advance of any

meetings with stakeholders so that information can be obtained from BTP where required.

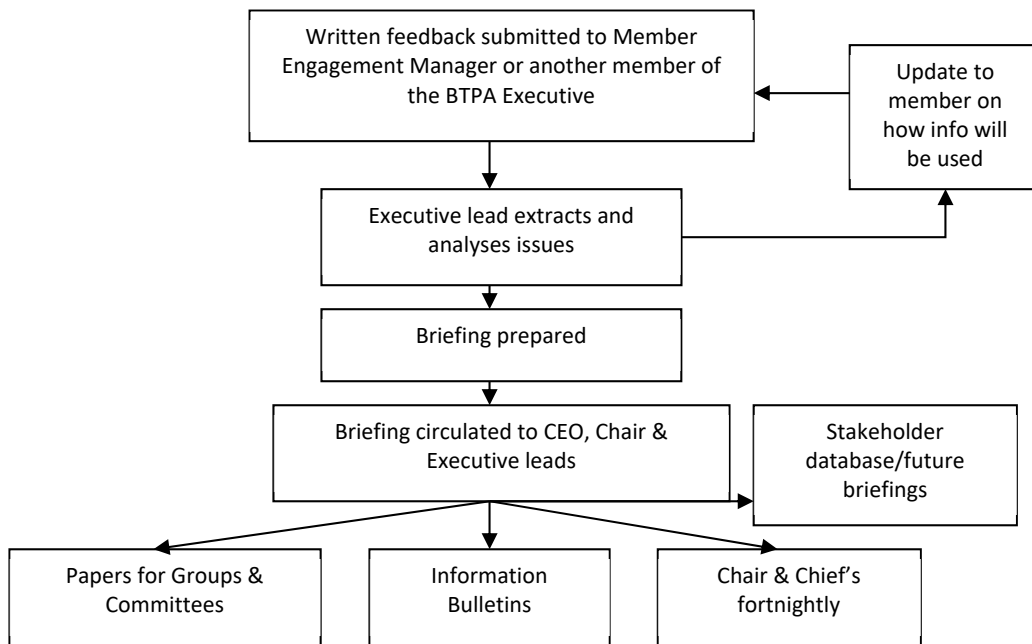

6.13 Members will be further supported in their role by the provision of high quality and timely briefings in advance of contact.

Feeding back

6.14 It is important that the Authority is able to formally capture the outputs of Members’ work for two key reasons;

- To allow the Authority (via the Executive) to have a broad overview of the range of issues that are raised by individual Members as they carry out their duties outside of formal meetings. At present, there is no alternative coherent way in which the Authority can capture and monitor general trends or issues outside of the structured meetings process.
- To enable the Authority to evidence the work that Members do outside of minuted Committee and/or Authority meetings for the purposes of external audit/scrutiny.

6.15 Written feedback should be submitted to the Member Engagement Manager and distributed as appropriate (see the below diagram).

6.16 Members should feedback a summary of the outputs from all meetings. If there is no feedback required Members should submit a form advising that a visit has taken place and that there is nothing to report. This is for audit purposes. Issues of a particularly confidential or sensitive nature can be fed back directly to the Chief Executive if preferred.

6.17 Feedback can include any information that a Member believes to be useful but as a guide may include;

- Attendees of meeting/visit.
- Topic(s) of discussion.

- Operational issues raised & any Member/Executive actions arising.
- Organisational issues raised & any Member/Executive actions arising.
- Any diversity, finance or legal/risk implications arising.
- Any topic that may be appropriate for an Authority/ Committee/Group paper/presentation or scrutiny exercise.

6.18 The Executive will collate this information and provide briefings or papers for the Authority, Committees, Working Groups and/or individual Members as appropriate. Members should also update the Chair of the Committees/Working Groups on the details of any visits or events which link into their work streams.

7. Board effectiveness and appraisal

7.1 An annual review of board effectiveness will take place and will be reported in the Authority's Annual Governance Statement. The board effectiveness review will have independent input every three years in accordance with government guidance. The effectiveness evaluation will be sent to the Principal Accounting Officer with an explanation of how the Authority intends to address weaknesses identified. Progress against the implementation plan will be reported to DfT through the bi-monthly meetings.

7.2 The effectiveness review will assess the following:

- How well the Authority is fulfilling responsibilities in Corporate Governance: Code of Good practice;
- How well the Authority is meeting its statutory duties;
- Relationships within the Authority and with stakeholders;
- Compliance with controls;
- Mix of skills, experience and diversity within the Authority.

7.3 The methodology for conducting the review will vary from year-to-year depending on the issues encountered throughout the year but will include a mix of the following:

- review of board papers;
- self-assessment questionnaires;
- member interviews;
- peer reviews; and
- Authority observations.

7.4 Individual appraisals will be focused on the performance of individual Members. They will look at how each Member contributes effectively and corporately to the Authority, including attendance at Authority and committee meetings and time spent on Authority matters. The appraisal process will provide an opportunity to review developmental needs and feedback to the Chair on the Member experience.

8. Training

- 8.1 A number of training opportunities will be available to Members throughout each year. Members are encouraged to attend these as they will cover such things as, for example, diversity training, health and safety and information management. A list of the competencies for Members is attached as Annex C.
- 8.2 Specific training requirements committee roles have been assessed and appropriate training will be provided as required for new committee appointments.

9. Monitoring arrangements

- 9.1 This document will be reviewed every year.
